

Vote to Defend Our NDIS

The NDIS is a historic social and economic reform that has improved the lives of hundreds of thousands of Australians with disability.

Its introduction meant that for the first time, people with disabilities had the chance to access the basic support they need to live their best lives.

But today, the NDIS is at a crossroads.

Over the last couple of years, the NDIS has not been delivering on its promises. It is letting down the very people it was created to support. But it's not just about the money – people with disability are not being listened to.

Australians with disabilities rely on NDIS to visit family and friends, to work, or simply to shower, eat and get in and out of bed – we cannot afford to live without the NDIS Australians fought so hard for.

That's why we're asking you to vote to Defend Our NDIS when you go to the ballot box this election.

Do you know where your local MP stands on the NDIS?
